Innovative technology solutions for **sustainability**

## **Abengoa will provide Q1'15 preliminary results during its 9<sup>th</sup> Analyst & Investor Day**

**Attendees will also get an update on current strategic initiatives and growth opportunities, among other topics**

March 31, 2015 - Abengoa (MCE: ABG.B/P SM; NASDAQ: ABGB), the international company that applies innovative technology solutions for sustainability in the energy and environment sectors, announced today that it will provide preliminary results for the first quarter of 2015 during its 9th Annual Analyst & Investor Day, which will be held on April 7, 2015 in New York City at the NASDAQ MarketSite and in London on April 9, 2015 at The Langham London Hotel. Both events will start with the registration and breakfast at 7:45 a.m., local time.

Later on April 7, 2015, Abengoa's Deputy Chairman and Chief Executive Officer, Manuel Sanchez, will ring The NASDAQ Stock Market Closing Bell in a ceremony at the NASDAQ MarketSite in New York.

Attendees to Abengoa's Analyst & Investor Day will meet with Abengoa's senior management team to get an update on the strategy, financials and technology development of the Company, as well as the latest market outlook.

"We are very excited about coming together with the investment community for our 9<sup>th</sup> Annual Analyst and Investor Day. Senior management, as always, is dedicated to being readily accessible to our analysts and investors. We feel that this event is an important venue for discussing the current strategic opportunities in each of our core sustainability segments and how those opportunities will contribute to the future growth of Abengoa", stated Manuel Sanchez, Abengoa's Deputy Chairman and CEO.

He continued, "In addition, we will share certain preliminary key performance information for the first quarter of 2015, which is expected to be a solid quarter."

### **About Abengoa**

Abengoa (MCE: ABG.B/P SM /NASDAQ: ABGB) applies innovative technology solutions for sustainability in the energy and environment sectors, generating electricity from renewable resources, converting biomass into biofuels and producing drinking water from sea water.
