

# ABENGOA

With the sun... we produce thermoelectric and photovoltaic electric energy

With biomass... we produce ecologic fuels and animal feed

## Activity Report 2005

With wastes... we produce new materials by recycling, and we also treat and desalt water to achieve a sustainable globe

With Information Technology... we transform data into knowledge, providing effective operational and business real-time decision making for traffic, transport, energy and environment

With engineering... we construct and operate conventional and renewable energy power plants, power transmission systems and industrial infrastructures
