No

Description of the Restrictions

A.11 Indicate whether the General Shareholders' Meeting agreed to implement any neutralization measures to prevent public takeovers pursuant to the provisions of Law 6/2007.

No

Where applicable, explain the approved measures and terms under which restrictions will be rendered ineffective:

A.12 Indicate whether the company has issued securities not negotiated on the community regulated market.

Yes

If so, indicate the various classes of shares and, for each class of shares, the rights and obligations entailed therein.

Class B shares are also listed in NASDAQ Global Select Market through "American Depositary Shares" represented by "American Depositary Receipts" (with five class B shares interchangeable by one American Depositary Share).

B. General Meeting

B.1 Indicate and detail the differences, if any, between the quorum required and what is set forth in the Spanish Corporate Law (LSC) for convening the General Shareholders' Meeting.

No

Description of the Differences

B.2 Indicate and detail the differences, if any, with regards to the system contemplated in the LSC for signing corporate agreements.

No

Describe how it is different from the system envisaged by the LSC

B.3 Indicate the rules applicable to the amendment of the company's bylaws. In particular, the majority required for the amendment of the bylaws and, as the case may be, report on the legal provisions for the protection of the rights of the partners in the amendment of the bylaws.

Article 11 of the rules and regulations of the General Meeting establishes a special quorum that may enable the ordinary or extraordinary general assembly to validly agree on bond issuance, on capital increase or decrease, on changing, merging or splitting of the company and, in general, on any amendments whatsoever to the Bylaws, thus requiring, on the first call, the attendance of shareholders present or represented with at least fifty percent of the subscribed equity with voting rights and, on the second call, only requiring the attendance of twenty-five percent of said capital. In the event of the attendance of shareholders with less than twenty-five percent of the subscribed capital with voting rights, decisions may only be taken with the favourable votes of two thirds of the capital present or represented in the Meeting".

Article 8 of the bylaws establishes certain rules and regulations for the purpose of protecting minority shareholders in bylaw amendment matters:

"1[†] Separate voting in matters regarding the amendment of bylaws or agreements and other operations that may negatively affect class B shares

Bylaw or agreement amendments that may directly or indirectly damage or negatively affect the pre-emptive rights or privileges of class B shares (including any amendments to the precautionary bylaws regarding class B shares or any agreements that may damage or negatively affect class B shares in comparison with class A shares, or that may benefit or favourably affect class A shares in comparison with class B shares) shall require, in addition to being approved pursuant to the stipulations of these bylaws, the approval of a majority of class B shares in circulation at the time. For explanatory but by no means limiting purposes, said precaution shall entail as follows: the elimination or amendment of the precautions set forth herein on the principles of proportionality between the number of shares representing class A shares, those of class B and those of class C (if previously issued) over the total of the company's shares in the issuance of new shares or securities or instruments that may give rise to conversion, exchange or acquisition, or in any other manner, that may suppose a right to receive the company's shares; the partial or total exclusion, of a non-egalitarian nature for shares of class A, class B and class C (as the case may be), of the pre-emptive and other analogous rights that may be applicable by Law and by these bylaws; the repurchase or acquisition of the company's own shares that may affect class A shares, class B shares and class C shares (as the case may be), in non-identical manner, in terms and conditions, in price or otherwise therein, and which may exceed what is produced under the framework of ordinary operation of treasury stock or which may cause amortization of shares or the reduction of capital in non-identical manner for class A, class B or class C shares (as the case may be); the approval of the company's structural modification that does not amount to treatment identity in all of its aspects for class A and class B shares; the exclusion of the shares of the company from trading on any secondary stock exchange or securities market except through the presentation of an offer of acquisitions for the exclusion from trading as envisaged in the considerations for the class A, class B and class C shares (as the case may be); the issuance of class C or of any other class of preferred or privileged shares that may be created in future.

For that purpose, separate voting rights shall not be required for the various existing classes of shares to decide on whether to totally or partially exclude, as the case may be, the pre-emptive and other analogous rights that may be applicable pursuant to the Law and to these bylaws, simultaneously and identically for class A, class B and, as the case may be, class C shares"

[...]

“2nd Separate voting in matters regarding the amendment of bylaws or agreements and other operations that may negatively affect class B shares

Notwithstanding Article 103 of the Corporate Law, amendments of bylaws or agreements that may directly or indirectly damage or negatively affect the pre-emptive rights or privileges of class C shares (including any amendments to the precautionary bylaws relating to class C shares or to any agreement that may damage or negatively affect class C shares in comparison with class A and/or class B shares, or that may benefit or favourably affect class A and/or class B shares in comparison with class C shares) shall require, in addition to approval pursuant to the stipulations of these bylaws, approval by a majority of class C shares in circulation at the time. For explanatory but by no means limiting purposes, said precaution shall entail as follows: the elimination or amendment of the precaution set forth herein on the principles of proportionality between the number of shares representing class A shares, those of class B (if previously issued) and those of class C over the total of the company's shares in the issuance of new shares or securities or instruments that may give rise to conversion, exchange or acquisition, or otherwise, that may suppose a right to receive the company's shares; the partial or total exclusion, of a non-egalitarian nature for shares of class A and/or class B and class C of the pre-emptive and other analogous rights that may be applicable by Law and these bylaws; the repurchase or acquisition of the company's own shares that may affect class A and/or class B shares with regards to class C shares, in non-identical manner, in terms and conditions, in price or in any other manner, and which may exceed what is produced under the framework of ordinary operation of treasury stock or which may cause amortization of shares or reduction of capital in non-identical manner for class A, class B (as the case may be) and class C shares; the approval of the company's structural modification that does not amount to treatment identity in all of its aspects for class A, class B shares (as the case may be) with regards to class C; the exclusion of the shares of the company from trading on any secondary stock exchange or securities market except through the presentation of an offer of acquisitions for the exclusion from the trading as envisaged in the considerations for the class A, (class B as the case may be) and class C shares; the issuance of any other class of preferred or privileged shares that may be created in future.

Notwithstanding the provisions of Article 293 of the Corporate Law, whatever the case may be, the Company's agreements on capital increase under whatsoever modality and under any formula that may give rise to the first issuance of class C shares shall, in addition to its approval in accordance with the legal provisions and with Article 30 of these Bylaws, require the approval of the majority of class B shares that may be in circulation.”

C.1.5 Explain, as the case may be, the measures taken by the company to ensure that females are included on the Board of Directors in a number that may ensure the male/female equilibrium.

Explanation of the measures

Five of the members of the Board of Directors are independent and two of those are female. The appointments and remunerations Commission promotes the inclusion of females on to the board of directors, specifically focusing on the posts of independent board member since the rest of the other member-posts that make up the Board are proprietary board member posts whose selections do not directly depend on the Commission. Thus, Abengoa ensured that the number of women is representative based on the number of independent members by applying the policy established in Article 1 letter a and b of the regulations of the Appointments and Remunerations Commission which specifically outlines the quest for equal opportunities: "Article 1 - Composition and Structure". [...] "The Appointments Commission shall establish procedures and, in the event of new vacancies, shall ensure that:

- › the procedures for filling in board vacancies refrain from implicit bias against female candidates;
- › the company makes a conscious effort to include females in the target profile among the candidates for board places."

Moreover, through the company's Equality Framework Plan, Abengoa has defined a corporate strategy in the field of equal rights between male and female. Thus, all Abengoa companies and work centres take and use this Plan as reference to develop and approve their own. In 2009, to ensure the practice of these values, Abengoa created the Equal Opportunity and Treatment Office (OITO) under the Equality Framework Plan. The mission of this office is to advocate gender equality with the whole organization, promoting, developing and managing the Equality Framework Plan and all plans associated with it.

In addition, the company created the Equal Opportunity and Treatment Commission, presided over by the Human Resources Director and integrated by the HR heads from the various areas and geographical locations of the business as well as by the CSR director as permanent members, for the purpose of worldwide follow-up, and subsequent development of the issues relating to equal opportunity among the male and female employees of Abengoa

C.1.6 Explain the measures, as the case may be, that the Appointments Commission may have agreed upon to ensure that selection procedures refrain from implicit bias that would otherwise impede the selection of female members, and that the company purposefully seeks to include and includes female candidates that meet the professional profile sought:

Explanation of the measures

The Appointments and Remunerations Commission objectively and transparently assess the potential candidates based on merit criteria, promoting male and female equality and rejecting all kinds of direct or indirect discrimination based on sex.

The Commission, which includes women in its rank and file, assesses the competences, knowledge and experience that the Board requires, and defines the aptitude and functions sought in the candidates to occupy the vacancy available, evaluating the time and dedication such candidates may require to be able to diligently perform their duties, and then decide by majority vote.

If albeit the measures implemented, as the case may be, the number of female board members is still scarce or non-existent, explain the reasons to justify such:

C.1.18 Indicate whether any of the rules and regulations of the board were amended during the financial year:

Yes.

Description of Amendments

By virtue of the Board of Directors decision taken on October 20 2014, Article 29 of the Board of Directors Regulations was added to reflect the creation of the Strategy

and Technology Commission. Said commission shall comprise of three Board Members minimum, appointed by the Board of Directors. More than half of them shall be non-executive Board Members. The appointment shall be for a period of four years, renewable for same periods maximum. Their primary functions will be to:

- › Analyse basic issues relating to technology and strategy, in consensus manner, that may affect Abengoa, including the studying or entrusting the study of products and services that make up of may make up Abengoa’s portfolio.
- › Prospectively analyse the possible evolution of Abengoa’s business based on its own or third party technology developments.
- › Supervise the R+D policy and investments and Abengoa’s strategic lines of technology development.
- › Analyse and supervise the main activities related to technology in Abengoa, such as patent portfolios, their management, innovation introduction, etc.
- › Gather information on the organization and personnel of the company through the Executive Chairman of Abengoa.
- › Inform the Board of Directors, or its Executive Chairman, on whatsoever matters it may require in relation to Abengoa’s strategic and technology development.
- › All other matters relating to aspects of its authority that may be requested of it by the Board of Directors or its Executive Chairman

Likewise, after the fiscal year close, by virtue of the Board of Directors decision taken on January 19 2015, Article 22 of the Board of Directors Regulations was amended to add the following paragraph:

“The Board of Directors will be entitled to designate the lead independent director referred to in article 529 septies of the Companies Act as second vice-chairman of the board of directors”.

C.1.19 Indicate the procedures for the selection, appointment, reappointment, appraisal and removal of Board members. Provide details of the authorised bodies, the procedures to follow and criteria to employ in each of the procedures.

The Appointments and Remunerations Commission is the body authorised in all cases to provide the Board of Directors with duly substantiated proposals, applying the criteria of independence and professionalism as established in the regulations governing the Board and the Commission.

The performance of the board members and of the executive board members is assessed on the Appointments Commission's proposal through substantiated reports filed to the Board during the meeting held in the subsequent first quarter that follows the closing of the previous financial year and after obtaining or at least knowing the accounting estimate for the financial year closing and upon receipt of the auditor's report since both are essential as assessment criteria.

The Audit Commission and the Appointments and Remunerations Commission were formed on December 2, 2002 and on February 24, 2003, respectively. On the same date, the board of directors prepared a proposal to amend the bylaws for the purpose of incorporating provisions for the Audit Commission, the proposal for regulating meetings of Shareholders, the partial amendments to board of directors' regulations and, finally, the internal regulations of the audits Commission and of the appointments and remunerations Commission, approved by the general shareholders' meeting held on June 29, 2003.

In February 2004 the composition of both Commissions was modified to permit independent board members from outside the company to become members of said commissions. Consequently, the Audit Commission and that of Appointments and Remunerations now comprised of non-executive board members, all of them independent, as required in the Financial System Reforms Law. Since there was as yet no appointments commission, the first two independent board members were appointed by the board of directors, as is logical. Said independence is also ratified on annual basis by the Appointments Commission. Once created, it was entrusted with the duty to propose the appointment of board members, and since then it has remained in charge of proposing to the Board of Directors

With regards to the procedures for selecting and appointing independent board members, the appointments and remunerations Commission is the body in charge of selecting profiles that best represent the needs of the different interest groups among professionals of different fields and of renowned national and international prestige. The procedure for selecting them is based on merits and on the intention to cover any vacancy with professional profiles that are not linked to any specific interests.

Thus, the appointments and remunerations Commission performs annual inspections to verify the sustenance of the conditions met for the appointment of the board member and the nature and typology assigned to said member, and then includes the information in the annual report of the corporate governance. The appointments commission likewise strives to ensure that the selection procedures for filling in vacancies refrain from implicit

biases that may hinder the inclusion of females that fit the required profile into the potential candidates. Its functions also include reporting to the Board of Directors on appointments, re-elections, terminations and remunerations of board members and posts, as well as the general policy of remunerations and incentives for board members and for the senior management and to inform the board of directors beforehand on all proposals to be submitted to the general shareholders for the appointment or dismissal of board members, even in cases of co-optation by the board of directors itself.

In relation with the above, external auditors issue annual verification reports that are independent from the report issued by the corporate governance of Abengoa S.A., evaluating whether its contents conform both with the recommendations of the report of the special work group on the good governance of listed companies (Unified Code of Good Governance) as well as with the amendments fostered in by virtue of Law 2/2011, of 4th March, on Sustainable Economy

C.1.20 Indicate whether the Board of directors made any efforts to assess its activities during the financial year

Yes

If so, explain to what extent the self-assessment has given rise to significant changes in its internal organization and regarding the procedures followed in its activities:

Description of Amendments

There were no amendments

C.1.21 Indicate the cases in which Board members are obliged to resign.

Directors are removed from office when the term for which they were appointed comes to an end, and in all other cases deemed appropriate by law, the bylaws or the regulations.

Board Members are obliged to surrender their posts to the board of directors and to formalize their resignation, if the board deems it convenient, in the following cases:

- › If they are involved in any of the supposed incompatibilities or prohibitions envisaged by law.
- › If deemed severely liable by any public authority for infringing upon their obligations as board members.
- › If the board itself requests it so because board member is deemed to have infringed upon his/her obligations thereof.

Thus, Article 13 (Board Member Termination) of the Board of Directors Regulations establishes that:

- › 1. Board Members duties shall be terminated if the duration period of the appointment expires or if all other assumptions deemed appropriate by the Law, the Bylaws, and the Regulations, occur.
- › 2. Board Members are obliged to surrender their posts to the board of directors and to formalize their resignation, if the board deems it convenient, in the following cases:
 - If they are involved in any of the supposed incompatibilities or prohibitions envisaged by law.
 - If deemed severely liable by any public authority for infringing upon their obligations as board members.
 - If the board itself requests it so because board member is deemed to have infringed upon his/her obligations thereof.
- › 3. When the period expires or duty is terminated, whatever the reason, said board member may not render any services to any other competing entity for a period of two years, except if the board of directors release him/her from this obligation or shortens the duration."

C.1.22 Indicate whether it is the chairman of the board of directors who also serves as the company's chief executive. If so, outline the measures taken to limit the risks entailed in concentrating powers in a single person:

Yes

Measures to limit risks

In accordance with the provisions of article 44 bis of the Company's Bylaws, on December 2, 2002 and on February 24, 2003, the board of directors set up the audits Commission and the appointments and remunerations Commission, respectively.

These Commissions are vested with the necessary non-delegable powers inherent in the responsibilities assigned them by law, by the bylaws and by their respective internal regulations, which makes them organs of monitoring and supervision of issues within their power.

Both are presided over by independent, non-executive board members, and are exclusively comprised of independent and non-executive board members.

On December 10, 2007, the board of directors decided to appoint Prof. Mr José B. Terceiro Lomba (representing Aplidig SL), coordinator-board member, as Executive Deputy Chairman of the board of directors, with the consent of all the other board members and especially the independent members. Notwithstanding the above, on January 19, 2015, Aplidig S.L. (Prof. Mr. José B. Terceiro) resigned from all posts it (he) held on the Company's Board of Directors and its commissions.

On October 25, the board of directors also decided to appoint Mr. Manuel Sánchez Ortega as CEO sharing his executive duties with Mr. Felipe Benjumea Llorente. Said appointment was ratified by the General Shareholders' Meeting on April 10, 2011. Based on the explanation above, with four executive board members, and an ample majority of independent or external board members, all the decisions taken by the top executive are subject to effective monitoring to ensure that power is not concentrated in the top executive, to boost decision-making and to allow the company governance to function properly.

Indicate and, if so, explain whether rules were established to empower any independent board member to request the convening of a board meeting, or to include new items on the agenda, in order to coordinate and echo the concerns of external board members and to oversee the assessment by the board of directors.

Yes

Explanation of the rules

There are currently sixteen members on the board of directors. The Board of Directors Regulations governs the composition, functions and internal organization of the governing body. The company also has an Internal Code of Conduct that bounds the board of directors, the senior management and all other employees deemed affected by virtue of the positions or powers that may be held in matters relating to the Stock Market. The Shareholders' General Meeting Regulations governs the formal aspects and the internal system for holding shareholders' meetings. Lastly, the board of directors is assisted by its audits Commission, the appointments and remunerations Commission and, more recently, the strategy and technology commission, each of which has its own respective internal regulations. All the rules and regulations, set forth in the consolidated text of the company's Internal Good Governance Rules, are available on the company's website at www.abengoa.es and www.abengoa.com.

Since it was formed, the appointments and remunerations Commission has been analysing the structure of the company's governing body and adapting it to the recommendations of corporate governance, especially to the historic and special configuration of said bodies within Abengoa. In February 2007, based on this analysis, the commission recommended the creation of the post of Lead Director, and the elimination of the Board of Directors' Advisory Board. The first measure was in order to incorporate the corporate governance recommendations prepared in Spain in 2006; the second, because it was deemed that said Advisory Board had already performed the duty for which it was originally created and that its coexistence with the corporate bodies could lead to conflicts of power. Both proposals were approved at the Board of Directors' meeting held in February 2007 and at the General Shareholders' Meeting held on April 15 of the same year. Thus, Prof. Mr José B. Terceiro was appointed (on behalf of Aplidig, S.L.) as Lead Director, in his capacity as independent member, until January 19, 2015, when he (it) was replaced by Mr. Antonio Fornieles Melero. On a final note, in October 2007 the commission proposed that the board should accept the resignation of Mr. Javier Benjumea Llórente from his post as Deputy Chairman and should also revoke his delegated powers, and should likewise accept the appointment of a new natural person to represent Abengoa and Focus-Abengoa Foundation in entities or companies where representation is required.

The commission then decided to revisit the study of the number and characteristics of the Deputy Chairman of the board of directors within the current structure of governing bodies.

As a result, the commission thought it necessary to restrict the powers of the Deputy Chairman of Abengoa to those conferred under the Spanish Corporate Law with regards to the organic representation of the company on the one hand, and as balance to the

Chairman's functions on the board of directors, on the other. Thus, it was considered that the coordinating board member – with the functions assigned by the resolutions of the board of directors (February 2007) and the shareholders' general meeting (April 2007) – was the ideal figure, given the corporate governance recommendations and the company structure, as well as the composition and diversity of its directors. The coordinating board member has already been entrusted with the task of coordinating the concerns and motivations of the other board members, and empowered to convene board meetings and to include new items on the agenda. In its role as the visible protector of the interests of the Board members, it holds more of a de facto than of a de jure kind of representation on the Board, such that it seemed appropriate to confirm and expand this representation by making the post both institutional and organic. For the reasons outlined above, the commission proposed Aplidig, S.L. (Aplidig, represented by Prof José B. Terceiro Lomba), the then Lead Director, as the new Executive Deputy Chairman to the Board of Directors. In addition, and within the functions of organic representation, the executive deputy chairman, jointly with the chairman of the board of directors, has been put forward as the physical representative of Abengoa, in its capacity as the Chair of the Board of the Focus-Abengoa Foundation, as well as in any other foundations and institutions in which the company is or should be represented.

In view of the above, on December 10, 2007, the board of directors agreed to appoint Aplidig, S.L. (represented by Prof José B. Terceiro Lomba), the then Lead Director, as Executive Deputy Chairman of the Board of Directors, and the independent board members unanimously consented to it retaining its post as coordinating board member in spite of its new appointment as Executive Deputy Chairman. In addition, and within the functions of organic representation (conferred through a power of attorney granted by the board of directors on July 23, 2007), the Executive Deputy Chairman, together with the Chairman of the Board of Directors, was proposed as joint physical representative of Abengoa, in its capacity as the Chair of the Board of Focus-Abengoa Foundation, and of any other foundations and institutions in which the company is or should be represented.

Notwithstanding the above, as indicated, on January 19, 2015, Aplidig S.L. (Prof. Mr. José B. Terceiro) was replaced by Mr. Antonio Fornieles Melero as Lead Independent Director, with the powers set forth in article 529 septies of the Companies Act, and Second Vice-chairman, the latter being non-executive.

C.1.23 Does the company require reinforced majorities other than the legal majorities for any type of resolution? If so, provide a description of the differences.

No

Description of the differences

C.1.24 Explain whether there are specific requirements other than those relating to Board members for being appointed Chairman of the board of directors.

No

C.1.25 Indicate whether the Chairman has a deciding vote:

Yes

Matters in which there is a deciding vote:

In the event of draws.

C.1.26 Indicate whether the bylaws or board regulations establish any age limit on board members:

No

C.1.27 Indicate whether the bylaws or board regulations establish a limited mandate for independent board members, other than established in the law:

No

Maximum number of years of mandate

C.1.28 Indicate whether the bylaws or the board of directors' regulations establish specific regulations for delegating voting rights on the board of directors, how it is done and, in particular, the maximum number of delegations that may be conferred on a board member, as well as whether it has been made compulsory to delegate in a board member of similar class. If so, provide brief details of said regulations.

The second section of Article 10 of the Regulations of the Board of Directors establishes the following:

"Each board member may confer his/her representation upon another board member without it limiting the number of representations that each may hold for attendance to the board. The representation of the absent board members may be conferred in writing by any means whatsoever, including telegram, telex or telefax addressed to the chair."

C.1.29 Indicate the number of board meetings held during the financial year. Likewise indicate, where applicable, the number of times the Board met without the chairman in attendance: Proxies granted with specific instructions for the meeting shall be counted as attendances:

Number of board meetings	18
Number of board meetings without the attendance of the Chairman	0

Indicate the number of meetings held by the different board commissions during the financial year:

Number of meetings of the Executive or Delegate Commission	Not applicable.
Number of meetings of the Audit commission	7
Number of meetings of the Appointments and Remunerations commission	6
Number of meetings of the strategy and technology commission	2
Number of meetings of the Appointments commission	Not applicable.
Number of meetings of the Remunerations commission	Not applicable.
Number of meetings of the Appointments commission	Not applicable.

C.1.30 Indicate the number of board meetings held during the year with the attendance of all its members. Proxies granted specific instructions for meetings shall be counted as attendances:

Attendance of Board Members	16
% of attendance of total votes cast during the year	96.11

C.1.31 Indicate whether the individual and consolidated financial statements submitted for approval to the board of directors are first certified:

Yes

Identify, as the case may be, the person or persons who certified the company's individual and consolidated financial statements, for their approval by the Board:

Name	Post
Enrique Borrajo Lovera	Director of Consolidation

C.1.32 Explain, if any, the mechanisms that the board of directors put in place to prevent the board-prepared individual and consolidated financial statements from being presented at shareholders' general meeting with reservations in the audit report.

The risk control system, the internal audit services and the audits Commission to which the others report, are set up as frequent and regular monitoring and supervision mechanisms that prevent and, if appropriate, resolve potential situations which, if not addressed, could give rise to incorrect accounting treatment. Thus, the audits Commission receives regular information from the external auditor on the Audits Plan and on the results of its execution, and ensures that senior management acts on its recommendations.

C.1.33 Is the secretary to the Board also a board member?

No

C.1.34 Explain the procedures for the appointment and removal of the secretary to the board, indicating whether they are proposed by the appointments commission and approved by plenary session of the Board.

Appointment and Removal Procedure

The appointments and remunerations Commission makes the proposal

	Yes	No
Does the Appointments Commission report on appointments?	x

Is the Secretary to the Board entrusted with the duty of ensuring that the recommendations on good governance are followed?

No

Comments

The compliance officer is in charge of ensuring follow-ups on corporate good governance recommendations and at the same time in charge of ensuring compliance with the internal rules and regulations.

C.1.35 Indicate, as the case may be, the mechanisms established by the company to preserve the independence of the external auditors, the financial analysts, the investment banks and the rating agencies.

Article 27 of the Board of Directors Regulations establishes the function of the audits Commission as being to ensure the independence of the external auditor, which includes ensuring an inspection of the services rendered, the limits on the concentration of the auditor's business, and in general, other regulations in existence to ensure the independence of the auditors. With regards to financial analysts and investment banks, the company maintains an internal procedure for issuing a request for three offers that may be contracted, at the same time the company prepares a mandate letter which reflects the

specific terms of the work contracted. As regards credit rating agencies we have the ratings of three agencies plus their mandate letters.

C.1.36 Indicate whether the company changed its external auditor during the financial year. If so, identify the incoming and outgoing auditors:

No

In the event of disagreements with the outgoing auditor, please provide details:

No

Explanation of the disagreements

C.1.37 Indicate whether the audit firm performs other non-audit work for the company and/or its business group and, If so, state the total fees paid for such work and the percentage this represents of the fees billed to the company

	Company	Group	Total
Fees for non-audit work (in thousands of Euros)	292	2,104	2,396
Fees for non-audit work/total amount invoiced by the audit firm (in %)	37%	30%	43%

C.1.38 Indicate whether the audit report on the annual accounts for the previous financial year contains reservations or qualifications. If so, detail the reasons given by the Chairman of the Audit Commission to explain the content and scope of such reservations or qualifications.

No

Explanation of the reasons

C.1.39 State the number of consecutive years for which the current audit firm has been auditing the annual accounts of the company and/or its business group. Also indicate the percentage of years the current audit firm has been auditing the accounts over the total number of years the annual accounts have been audited:

	Company	Group
Number of consecutive years	3	3
Number of years audited by the current auditing company / number of years the company has been audited	0.12	0.12

C.1.40 Indicate and, if possible, provide detail of the procedure by which directors may seek external consultancy:

Details of the procedure

The Secretary to the Board of Directors exercises the functions legally attributed to that position. Currently, the office of secretary and legal consultant are not vested in the same person responsible for ensuring that meetings are validly convened and that resolutions are validly adopted by the Board. In particular, he/she advises board members on the legality of the deliberations and motions put forward and on compliance with the Internal Corporate Governance Regulations, which renders him/her the guarantor of the principle of formal and material legality that governs the actions of the Board of Directors. The secretary to the Board of Directors, as a specialized guarantor of the formal and material legality of the board's conduct, has the full support of the latter to execute its functions with complete independence of criteria and stability, and is responsible for ensuring compliance with the internal regulations on corporate governance. Single-handedly, or through the board members, he/she channels the external consultancy necessary for the due training of the board.

The Board of Directors has access to external, legal or technical consultants, depending on its needs, which may or may not be arbitrated through the Board secretary. The second paragraph of Article 19 of the Regulations of the Board of Directors sets forth that.

“Through the Chairperson of the Board of Directors, Board Members shall be empowered to submit a proposal by majority to the Board of Directors to engage the services of a legal, accounting, technical, financial, commercial or any other kind of consultants deemed necessary in the interests of the Company to provide assistance in the exercise of their duties in dealing with specific problems of certain magnitude and complexity linked with the exercise of such duties.”

C.1.41 Indicate and, as the case may be, provide detail of the procedure by which board members can obtain the necessary information in advance to prepare for meetings of the governing bodies:

Yes

Details of the procedure

Remitting of documents and/or making them available at the Board headquarters in advance of Board Meetings. Also, in compliance with the stipulations in recommendations 24 and 25 of the Unified Code of Good Governance, the company prepared a handbook of basic internal regulations applicable to the functions and responsibilities of the board member to be issued to each new board member appointed, to provide vast knowledge of the company and its internal rules.

C.1.42 Indicate and, as the case may be, provide detail of whether the company established rules that oblige directors to report and, where appropriate, resign in cases where the image and reputation of the company may be at stake:

Yes

Explain the rules

Article 13 of the Board of Directors Regulations establishes that “Board members must offer to resign and, if the Board of Directors considers it appropriate, resign under the following circumstances: if deemed to be involved in any of the legally envisaged suppositions of incompatibility or prohibition.”

Section (p) of Article 14.2 of the same Regulation also establishes the obligation of the board members to inform the company of all legal and administrative claims and of any other claims that, given the magnitude, may severely affect the reputation of the company.

C.1.43 Indicate whether any member of the Board of Directors informed the company that he/she was tried or formally accused of any of the offences stipulated in Article 213 of the Spanish Corporate Law:

No

Indicate whether the Board of Directors analysed the case. If the answer is yes, explain the reasons for the decision taken on whether or not the board member should continue to hold its post or, as the case may be, state the actions that the Board of Directors have taken up to the date of this report or the report intended to be issued later.

Not applicable

C.1.44 List the still valid significant agreements signed by the company, whether modified or terminated in the event of a change in the company's control through a hostile takeover bid, and its effects.

The Company has not entered into any significant agreements that become effective, are amended or concluded as a consequence of a change in the company's control through a hostile takeover bid. However, the Company has entered into a bulk of agreements and financial contracts that could be terminated in case of a change in the control majorities of the Company, change that does not always occur in case of a takeover bid.

C.1.45 Identify in sum and provide detail of the agreements signed between the company and its administrative, management or employee posts with compensations, guarantees or protection clauses, in the event of resignation or unlawful dismissal or if contractual relationship is abruptly halted because of a hostile takeover bid or other kinds of transactions.

Not applicable

Indicate whether the governing bodies of the company or its group must be informed of and/or must approve such contracts:

C.2 Commissions of the Board of Directors

C.2.1 Give details of all Commissions of the board of directors, their members and the proportion of proprietary and independent board members on such Commissions:

Audits Commission

Brief description

1st In relation to the internal monitoring and reporting systems:

- › To know the process of the company's financial reporting and internal monitoring systems.
- › To report on the Annual Accounts, as well as on the quarterly and half-yearly financial statements that must be issued to the regulatory or supervisory bodies of the securities markets, with express mention of the internal control systems, verification of compliance and monitoring through internal audit and, when applicable, on the accounting criteria applied.
- › Monitoring the preparation process and the integrity of the financial report with regards to the company and, where applicable, the group, verifying compliance with legal requirements and the correct application of accounting criteria, and appropriately specifying the scope of consolidation.
- › Frequently review the systems for the internal monitoring, internal auditing and risks management, so that the main risks are identified, managed and properly disclosed.
- › Supervise and ensure the independence and effectiveness of the duties of internal audits and supervising them, with full access to said audits, propose the selection, appointment, re-selection and dismissal of heads of internal audits, propose the budget for said unit, and set the salary scale of its Director; obtain regular information on the activities and the budget of the unit; and ensure that the senior management considers the conclusions and recommendations in its reports.
- › Establish and supervise a mechanism by which staff can confidentially and, if necessary, anonymously report any irregularities detected in the course of their duties, in particular financial or accounting irregularities, with potentially serious implications for the company.
- › Summon any company employee or manager, and even order them to appear before the Commission without the presence of any other senior officer.
- › Supervise compliance with the Internal Code of Conduct in relation to the Securities Market and the Policy on the Use of Relevant Information and the Rules of Corporate Governance.

› Before the Board of Directors take the relevant decisions, the Audits Commission must have informed said board on the following points:

- The financial information that all listed companies must periodically disclose. The Commission must ensure that interim statements are drawn up under the same Accounting principles as the annual statements and, to this end, may ask the external auditor to conduct a limited review.
- The creation or acquisition of shares in special purpose vehicles or entities resident in countries or territories considered tax havens, and any other comparable transactions or operations with complexities that might impair the transparency of the group.
- Associated transactions.
- Of any change in the accounting criteria, and any risks either on or off the balance sheet.

- › Inform the Shareholders' General Meeting on matters and questions posed by shareholders, on issues within its powers.
- › Summon any Board Members as deemed appropriate to attend Commission meetings, to report on whatsoever the Audits Commission may require thereof.
- › To prepare annual reports on the activities of the Audits Commission itself and to include it in the Management Report.

2nd In relation to external auditors:

- › To propose the selection, appointment, re-selection and replacement of external auditors, including the conditions of their hiring, to the Board of Directors to submit said proposal to the General Meeting of Shareholders for approval.
- › To regularly obtain information on the audits plan and its results from the external auditors, and on any other activities relating to the financial auditing, and to ensure that senior management act upon the recommendations.
- › To ensure the independence of the external auditor and, for that purpose:
- › The company must issue notice to the CNMV of any change of auditor as a significant event. Said notice must include a statement on any disagreements with the outgoing auditor and, if so, what it entails;

- The Commission must ensure that both company and auditor adhere to current regulations on providing services other than auditing, to the limits on the concentration of the business of the auditor and, in general, to other standards and regulations set forth to ensure the independence of auditors;
 - If an external auditor resigns the Commission must investigate the circumstances leading to the resignation.
- › Ensure that the group auditor is entrusted with conducting the audits for the individual group companies.
 - › To liaise with the external auditors in order to obtain information on any matters that could jeopardize their independence and on any other matters that may be in relation to the financial auditing process.

E. Risks Management and Monitoring Systems

E.1 Explain the scope of the company's Risks Management System.

Abengoa's risk management system is designed to mitigate all the risks to which the company may be exposed as a result of its activities. The structure of Abengoa's Risk Management is based on three pillars:

- › The Common Management Systems specifically designed to mitigate business risks.
- › Internal control procedures aimed at mitigating risks derived from the elaboration of the financial report and at improving the reliability of such report, designed in accordance with the SOX Act (Sarbanes-Oxley Act)
- › The universal risks model which is the methodology that Abengoa uses for the identification, compression and evaluation of the risks that affect the company. The purpose is to obtain an integral vision of them, designing an efficient system of response that is in line with the business goals and objectives.

These two elements form an integrated system that allows appropriate management of the risks and their mitigating controls at all the levels of the organization.

Abengoa's risks management system is a global and dynamic system. The scope of action of said system covers the entire organization and its whereabouts on a more permanent basis, and compliance with it is compulsory for all the company's employees, managers and board members.

In addition, the internal auditing unit is in charge of ensuring the compliance with and the good functioning of these systems.

E.2 Indicate the organs of the company in charge of elaborating and executing the Risks Management System.

The duty of elaborating and executing the risks management system is basically exercised by the audits Commission specifically through internal auditor and through the risks manager.

The risks manager is in charge of analysing projects and businesses in the efforts and in aspects regarding the identification and quantification of risks of any nature.

On the other hand, the internal audits department is in charge of supervising and ensuring the correct functioning of the risks management system.

E.3 Specify the main risks that could affect the attainment of business objectives.

In the process of identifying, compressing and evaluating the risks affecting the company, the following risks factors outlined in Form 20F, filed with the SEC on March 19, 2014, were considered:

General Risks

- › Abengoa operates in a sector of activity especially linked with the economic cycle.
- › Risk derived from depending on the regulations in support of activities relating to renewable energy, bioethanol production and also research- and development-related activities.
- › Solar power generation.
- › Biofuel consumption.
- › Risks derived from the sensitivity entailed in the supply of raw materials for biofuel production and the volatility of the price of the final product.
- › Risks derived from the sensitivity entailed in the supply of raw materials for recycling activities and the volatility of the price of the final product.
- › Risks derived from delays and cost overruns in activities of Engineering and construction due to the technical difficulties of the projects and the lengthy duration of their execution.
- › Risks linked to the activities of concession-type infrastructural projects operating under regulated tariffs or extremely long-term licences agreements.
- › Incomes derived from long-term agreements: risks derived from the existence of clauses and/or renewal of licence agreements processed by Abengoa, termination of pending engineering and construction projects and non-renewals of biofuel distribution agreements.
- › The variations in the cost of energy may bear negative impact on the company results.
- › Risks derived from the development, construction and exploitation of new projects.
- › Abengoa's activities may be negatively affected in the event that public support for such activities diminishes.

- › Construction projects regarding the engineering and construction activities and the facilities of concession-type infrastructural and industrial production activities are dangerous places of work.
- › Risks derived from joining hands with third parties for the execution of certain projects

Risks that are specific to Abengoa

- › Abengoa operates with enormous levels of indebtedness.
- › Risks derived from the demand for capital intensive investments in fixed assets (CAPEX), which increase the need for external finance for the execution of pending projects.
- › Risk entailed in obtaining reduced net profit derived from assets rotation
- › The company has a controlling shareholder.
- › The renewable energy sector products and services are part of a market subject to intensive conditions of competition.
- › The results of the engineering and construction activity depend significantly on the growth of the company in the concession-type infrastructural and industrial production activities.
- › Fluctuations in interest rates and their hedging may affect the results of the company
- › Fluctuations in the currency exchange rates and their hedging may affect the results of the company.

Risks derived from internationalization and from country risks

- › Abengoa's activities fall under multiple jurisdictions with various degrees of legal demands requiring the company to undertake significant efforts to ensure its compliance with them.
- › Insurance coverage underwritten by Abengoa may be insufficient to cover the risks entailed in the projects, and the costs of the insurance premiums may rise.
- › The activities of the company may be negatively affected by natural catastrophes, extreme climate conditions, unexpected geological conditions or other physical kinds of conditions, as well as by terrorist acts perpetrated in some of its locations.
- › The practices of tax evasion and product alteration on the Brazilian fuel distributions market may distort the market prices.

E.4 Indicate whether the company has a risk tolerance level.

The universal risks model is a tool used for identifying and evaluating all risks affecting Abengoa. All the risks contemplated therein are evaluated considering probability and impact indicators

Based on such parameters, the risks are classified as follows:

- › Minor risks: risks that occur frequently but bear little economic impact. These risks are managed to reduce their frequency only if managing them is economically viable.
- › Tolerable risks: risks that occur infrequently and bear little economic impact. These risks are monitored to ensure that they remain tolerable.
- › Severe risks: frequent risks that bear extremely high impact. These risks are managed immediately although, due to the risk management processes implemented by Abengoa, it is unlikely that Abengoa needs to tackle these types of risks.
- › Critical risks: risks that occur infrequently but bear extremely high economic impact. These risks have a contingency plan since, when they arise, their impact is extremely high. These risks are subject to their own contingency plan, given the severity of their impact when they occur

E.5 Identify the risks that materialized during the financial year

Abengoa endured certain risks during the 2014 financial year, the most significant of which is treated below, putting in place the pertinent multi-annual action plans to enable us to exercise control over all of them.

Energy and the environment are part of the activities in which Abengoa is engaged. This activity is performed in changing surroundings, with regulations, subsidies or tax incentives that can be changed or even legally challenged.

Some of our businesses depend on local and government regulations of industrial activities, including regulations that, among other things, enforce the reduction of carbon and other greenhouse gases and the content of biofuels in fossil fuels or the use of energy from renewable sources. Any amendment to such regulations will seriously undermine the profitability of our current and future projects, and it could also bear adverse material effects on our business, financial conditions and results.

Some subsidy regimens set up for renewable energy generation have been challenged in the past for constitutional and other types of reasons (including benefit schemes that constitute State subsidies from the European Union) in some jurisdictions.

In the event that all or part of our renewable energy generation subsidy systems and incentive schemes were to be declared illegal in any jurisdiction in which we are operating, we would have to be in conditions to efficiently compete with the non-conventional renewable and other kinds of energy or we would be unable to complete some ongoing projects. We are bound by excessive government regulations existing in a number of different jurisdictions, and our inability to comply with the existing regulations or requests or changes in the applicable regulations or requirements could bear negative impacts on our businesses, results of operations or on the financial situation and, among others, the Regulations - Spain -Solar Regulatory Framework - Royal Decree Law 413/2014, which develops the principles established by Royal Decree Law 9/2013.

Renewable energy production at our facilities is the object of various measures of tax reduction or tax incentives in the jurisdictions in which they operate. These tax incentives and reductions play important roles in the profitability of the projects that we execute. It is possible that in future part or all of said incentives may be suspended, shortened, or may not be renewed, or may even be completely cancelled. Such possibilities may negatively affect the profitability of the current plants and our ability to finance future projects, something that could bear adverse material effects on our businesses, financial conditions and results of operations.

E.6 Explain the response and supervision plan for the most threatening risks of the entity.

There is a specific action plan for each of the risks identified, which could encompass various departments of the company.

The following committees are in charge of the executive supervision of the company's main risks:

- › Risks Management Committees by Business Units.
- › Critical Projects Committees.
- › Risks Management Committees with the Executive.
- › Projects Committee
- › Special Situations Committees

F. Internal risks monitoring and management systems in relation to the process of financial reporting (System of Internal Control over Financial Reporting) (SCIIF)

Describe the mechanisms entailed in the risks monitoring and management system in relation to the company's financial reporting (System of Internal Control over Financial Reporting) process.

F.1 The control environment of the company

Report pointing out the main characteristics of, at least:

F.1.1. The bodies and/or functions in charge of: (i) the existence and maintenance of an appropriate and effective SICFR; (ii) its introduction; and (iii) its supervision.

The System of Internal Control over Financial Reporting, (hereinafter, SICFR), is part of Abengoa's general system of internal control and is set up as a system prepared to provide reasonable assurance of the reliability of financial report published. The body in charge of it, pursuant to the Regulations of Abengoa's Board of Directors, is the Board of Directors and, within it, the duty of supervision is conferred on the Audits Commission in accordance with the regulations thereof.

Thus, the Board of Directors is in charge of setting up and maintaining a compulsory Audits Commission as inferred from Article 27 of the Bylaws of the Board of Directors. Accordingly, the duties that the Board entrusts to the Audits Commission entail, in relation to the SICFR, "the supervision of the process of elaborating and integrating the financial report regarding the company and, as the case may be, the group, revising the compliance with regulatory requirements". Also, according to said article, the duties of the Board and, by delegation, the Audits Commission, include "the regular revision of internal risks monitoring and management systems, to ensure appropriate identification, management and reporting of the main risks".

F.1.2. The following elements, if existing, especially in relation to the process of elaborating the financial report

Departments and/or mechanisms in charge of: (i) designing and revising the organizational structure; (ii) clearly defining the lines of responsibility and authority, with an appropriate distribution of duties and tasks; and (iii) ensuring the existence of sufficient procedures for its correct announcement through out the entity.

As stipulated by the Board of Directors Regulations:

- It is in charge of defining the structure of the Group of companies, on the proposal of the company's chief executive, the appointment and possible dismissal of senior executives of Abengoa and other companies making up the group.
 - The core components of the board's mission is to approve the company's strategy and the organization required for its execution, and to ensure that management attains the objectives while pursuing the company's interests and corporate purpose.
 - Through the relevant departments, the board of directors will strive for the correct and integral announcement of the relevant information of the company including but not limited to that related to the call for the general shareholders' meeting, its agenda and contents of the proposed agreements, relevant facts, agreements signed by the last shareholders' general meeting held, the internal regulations of corporate governance and Annual Report. The media for announcing will be the most adequate for ensuring that unrestricted announcements are made and in a timely manner, including the Company's webpage.
- › **Code of conduct, body of approval, degree of publication and instruction, principles and values including (indicating whether there is specific mention of the recording of transactions and the elaboration of the financial report), body in charge of analysing breaches and of proposing the correct actions and sanctions.**

At Abengoa there is a code of ethics and professional conduct approved by the board of directors and available on the Intranet in both Spanish and English, which outlines the ethical and responsible behaviour that must be assumed in the execution

of company activities and in managing the businesses, by the management team and all the professionals of Abengoa and its subsidiaries. Abengoa runs a continuous on-the-job training programme in which courses are imparted on topics of Code of Conduct. It is compulsory for all employees to attend said courses and to show proof by signing attendance sheets, and the company ensures that all Abengoa employees have learned, received and understood said information.

In 2014, 2,376,860 hours of training was imparted in the whole Group; (35,878 hours in Abengoa, S.A.); 153 employees were in attendance.

Abengoa's Code of Conduct::

- The highest standards of honesty and ethical behaviour, including appropriate and ethical procedures for dealing with actual or possible conflicts of interests between professional and personal relationships.
- The most complete, just, precise, timely and intelligible communication in all periodical reports that Abengoa must submit to the organs of Administration or in all reports that may be made.
- Compliance with the applicable laws, standards, rules and regulations.
- The tackling of actual or possible conflicts of interests and the provision of orientation to ensure that employees, managers and board members report such conflicts to Abengoa.
- The interruption of the poor use or poor application of Abengoa's properties and business opportunities.
- The maximum level of confidentiality and fair trade in and outside Abengoa.
- The immediate internal reporting of any breach of said Code of Conduct and the appropriate reporting of all illegal behaviours.

All information made public and all media releases deemed to be affecting Abengoa must first be approved by the board of directors or by the manager who may have been previously entrusted with performing such duty.

Its appropriate follow-up is a source of profitability and security in the execution of the activities of Abengoa. Said regulations ensure the veracity and reliability of the financial report.

The Board of Directors is in charge of, and, by virtue thereof, its Chairman, Commissions set up, delegated commissions or, as the case may be, Managers entrusted therewith, the classification of the breaches of the Common Management Systems.

Whistleblowing channel, which enables reporting of irregularities of financial and accounting nature to the audits commission, in addition to possible breaches of the code of conduct and irregular activities in the organization. The reports may be filed in secrecy or anonymity.

An important aspect of responsibility and transparency is to provide a mechanism by which any interested party may safely and secretly report irregularities, unethical or illegal conducts that, in his/her opinion, occur in the execution of the Company's activities.

In this manner and following the guidelines provided in section 301 of the Sarbanes-Oxley Act, the Audits Commission decided to establish specific procedures for:

- The reception, safeguard and treatment of complaints or reports that the company may receive in relation to the accounting, internal monitoring of the accounting or auditing matters.
- Employees of the company to be able to secretly or anonymously send information in good faith on the dubious or arguable policies of accounting and auditing.

Towards that end, Abengoa has a double mechanism for receiving complaints or reports:

- An internal channel, which is available to all employees, so that they can notify any alleged irregularity in accounting or audits or breaches of the code of conduct. The communication channel is by e-mail or ordinary mail.
- An external channel, available to anyone outside the company, so that they can notify any alleged irregularities, fraudulent actions or breaches of Abengoa's Code of Conduct through the web page (www.abengoa.com).

- › **Training programs and regular updates for the personnel involved in the preparation and revision of the financial report, as well as in the evaluation of the System of Internal Control over Financial Reporting, which should at least cover accounting regulations, auditing, internal risks monitoring and management.**

The Human Resources Management works together with the Economic-Financial Management to impart regular training, both internally and externally, to the personnel involved in the preparation of the Financial Statements of the Group.

The training programs are fundamentally focused on the correct knowledge and update on the International Financial Reporting Standards (IFRS) and on the laws and other rules and regulations on the Internal Control over Financial Reporting (Common Management Systems).

Both the Internal Audits Management and the Global Risks Management keep themselves informed and up-to-date on the latest on Risks management and Internal Control, especially on Financial Reporting.

During the 2014 financial year, the Departments related with the preparation, revision and reporting of financial information received various publications as updates to the accounting and financial standards, internal control and tax, including courses by internal experts in relation to the updating of accounting standards.

F.2 Financial Reporting Risk Assessment

At least reporting the following:

- F.2.1. Describe the main characteristics of the risks identification process, including those of error or fraud, with regards to:**

If the process does exist and is documented.

Abengoa has introduced a process for identifying and evaluating risks: the Universal Risks Model which is updated on regular basis. Said model enumerates the risks identified by the organization, classified into categories and sub-categories, assign indicators to each to enable them to measure their probability and impact and to define the degree to which they may be tolerated.

And finally, the types of risks related with the accounting and the submission of the financial report, the management of debt and equity financing, planning and budgeting and the tax strategy of transactions:

Indicate whether the process covers the entire objectives of the financial reporting, (existence and occurrence; integrity; evaluation; presentation, breakdown and comparability; and rights and obligations), and whether it is updated and at what frequency.

The URM is designed to cover all risks that are identified. Among them, a series of them that refer to the preparation and submission of the financial report, accounting records, the management of debt and equity financing, planning and budgeting and the tax strategy of transactions:

Identified risks are covered and mitigated by Abengoa's internal monitoring system. All risks previously linked with the process by which the financial information is prepared are under control such that it may be guaranteed that the financial information appropriately adheres to the requirements of existence, occurrence, integrity, evaluation, presentation, breakdown and comparability.

Indicate whether there is a process for identifying the consolidation perimeter, considering, among other things, the possible existence of complex corporate structures, instrumental or special purpose entities.

The consolidation perimeter of Abengoa is subjected to revisions during each quarterly closing. The Consolidation department is in charge of analysing companies that enter and those that exit said perimeter. Both the creation and acquisition of companies, as well as their sale or dissolution, are subject to internal authorization processes that permit the clear identification of all entries and exits to and from the consolidation perimeter.

Indicate whether the process considers the effects of other types of risks (operational, technological, financial, legal, reputation, environmental, etc.) in the manner in which they affect the financial statements.

As already mentioned, the URM is the methodology for the identification, comprehension and evaluation of the risks that may affect Abengoa. The purpose is to obtain an integral vision of them, designing an efficient system of response that is in line with the business goals and objectives of the company.

It is made up of 56 risks belonging to 20 categories. These are grouped into 4 large areas (financial risks, strategic risks, regulatory risks and operational risks).

All the risks of the model are evaluated based on two criteria:

- › Occurrence Probability: Degree of frequency at which to be sure that a specific cause will expose Abengoa to an event with negative impact.
- › Impact on Entity: Set of negative effects on the strategic goals and objectives of Abengoa.

Which corporate governance body supervises the process?

The financial information preparation process is paramount responsibility of the Board of Administration. Pursuant to the regulations of the organ of administration, prior to the presentation of the financial information, it must first be certified by the Chairman of the Board and of the Corporate Directors of the department of Consolidation and Internal Auditing.

Likewise, as set forth in section F.5 of this document, the Board of Directors entrusts the Audits Commission with the duties of supervising the system of internal control and monitoring which ensures that the preparation of the financial information strictly follows the required standards.

F.3 Control Activities

Give a report pointing out the main characteristics, and indicate whether the following is at least included:

F.3.1. Procedures for reviewing and authorizing the financial reporting and the description of the System of Internal Control over Financial Reporting, to be published at the stock market, indicating responsibilities, as well as the documents describing the cash flows of activities and controls (even in connection with fraud risks) of the various types of transactions that could materially affect the financial statements, including the accounting closure proceedings and the specific revision of the judgements, estimates, evaluations and relevant projections.

In accordance with the Board of Directors Regulations, the integrity and exactitude of the Annual Accounts presented to the Board of Directors for approval must first be certified

by the Chairman of the Board of Directors and by the Director of the Department of Corporate Consolidation and Audits.

When the Board of Directors receives the reports issued by the Corporate General Directorate and obtains the necessary clarifications, it must clearly and precisely declare that the contents of the Annual Accounts and the Management Report can be easily understood.

The Board of Directors must ensure that that said documents depict the true state of the asset, the financial statement and the profit and loss outcome of the company, in conformity with the stipulations of the Law.

Thus, the Board of Directors will decide on and take as many actions and measures deemed necessary to ensure the Company's transparency on financial markets, promoting correct information on the prices of the Company's shares, supervising financial-related information regularly made public and performing as many duties as may be required of the company's status as a listed company.

The process or structure effectively followed in certifying the financial report, done on quarterly basis, reflects the manner in which financial report is generated at Abengoa.

In said structure, the information to be reported is prepared by company heads, then revised by heads of the respective Business Units and by the respective Corporate areas heads who certify both the reliability of the financial report on the area under their charge –which is what they submit for consolidation at group level- as well as the effectiveness of the internal control system set up to reasonably ensure said reliability. Finally, the chairman and CEO, as the Topmost executive, and the directors of Internal Audits and Corporate Consolidation certify the reliability of the consolidated accounts to the Board of Directors in the quarterly Audits Commission. With the support of the Internal Audits management, said Commission supervises the entire certification process, and then submits its conclusions from said analysis to the Board of Directors in the sessions in which the accounts will be officially signed. The information will then be published at the National Securities Exchange Commission (CNMV) once submitted to the Commission.

The legal consultants department of Abengoa SA meet regularly in committees with the different legal consultants of the various subsidiaries of Abengoa to be informed of the legal situations of ongoing litigations and later report to the Chairman's office where subsequent discussions are held during the Board of Directors meetings on the situations of the most significant conflicts.

F.3.2. Policies and procedures of internal control of information systems (especially on safety and security of access, monitoring of changes, operating them, operational continuity and separation of functions) that back the entity's relevant processes with regards to the elaboration and publication of the financial report

Among the controls studied for mitigating or managing the risks of error in financial reporting are those related to the most relevant computer applications, like controls relating to user access permissions or to the integrity of information transfer between applications.

In addition, Abengoa follows guidelines or standards and procedures of internal control over information systems in relation to acquiring and developing software, acquiring systems infrastructure, installing and testing software, managing changes, managing service levels, managing services performed by third parties, systems security and access to them, managing incidents, managing operations, the continuity of operations and the segregation of functions. Said guidelines and procedures -which in some cases are different based on geographical scope and which are in the process of gradual homogenization- are applied to all information systems including those that house the relevant processes of the generation of financial report, and to the infrastructure necessary for its functioning.

In geographies where Abengoa operates, the entire internal network of computer infrastructure is controlled by a Department of internal professionals who are charged with defining and executing the group's IT and telecommunications strategy, as well as user support, systems operation and IT security. Abengoa has an Internet Technology (IT) security system in place that envisages the recovery of relevant information in the event of a system crash. Said security system is managed through the aforementioned internal IT Department.

F.3.3. Policies and procedures of internal control aimed at supervising the management of activities sourced out to third parties, including the aspects of evaluation, calculation or assessment entrusted to independent experts, which could materially affect the financial statements.

In general terms, Abengoa does not retain third party subcontractors to perform significant tasks that directly affect financial reporting. Third-party assigned assessments, evaluations or calculations that could materially affect the financial statements are considered activities deemed relevant for generating financial report that may lead, as the case may be, to the identification of risks of priority errors, thus implying the designing of associated internal controls.

Abengoa has a method of approval through an authorization that grants Executive support which, among other things, must be acquired by the Department that needs to outsource a service. Such contracts are subject to reviews before being signed, including their analysis and internal approval of the fundamental hypothesis to be used.

F.4 Information and communication

Give a report pointing out the main characteristics, and indicate whether the following is at least included:

F.4.1. A specific function entrusted with defining, continuously updating accounting policies (area or department of accounting policies) and resolving doubts and conflicts derived from their interpretation, maintaining constant communication with those in charge of the transactions in the organization, continuously updating the manual of the accounting policies and reporting to the units through which the entity operates.

Abengoa operates with an Accounting Policies Manual. Said manual establishes the accounting policies criteria that must be observed when the company is preparing the financial report using the financial reporting framework established by the International Financial Reporting Standards adopted by the European Union.

The manual is available to all employees of Abengoa.

Said manual, is also subject to regular updates for the purpose of including all new applicable rules and regulations. The department of Consolidations and Accounting

Policies is responsible for updating the manual which was last updated during the 2014 financial year.

F.4.2. Mecanismos de captura y preparación de la información financiera con formatos homogéneos, de aplicación y utilización por todas las unidades de la entidad o del grupo, que soporten los estados financieros principales y las notas, así como la información que se detalle sobre el SCII

All the entities that make up Abengoa's consolidated group use the same financial information reporting tools and applications, regardless of the information system being used for the maintenance of the accounting records. Said tools, which are regularly supervised by the Consolidation Department, ensure that the financial information reported by companies is complete, reliable and consistent. Thus, the information reported during the closing of financial years includes all breakdowns deemed necessary for the preparation of consolidated financial statements and their explanatory notes.

F.5 Supervisión del funcionamiento del sistema

Give a report pointing out the main characteristics of at least:

F.5.1. the activities of supervising the System of Internal Control over Financial Reporting performed by the audits commission, and on whether the entity has an internal audits system that is empowered to support the commission in supervising the internal control system, including the SICFR. Also provide information on the scope of the assessment of the SICFR during the financial year and on the process by which the head of the assessment reports the results, whether the entity has an action plan that outlines the possible corrective measures, and whether its impact on the financial reporting has been considered.

The Board of Directors is in charge of ensuring the appropriate registration of the operations in the accounting records, of maintaining a structure of internal control and accounting for the purpose of preventing and detecting errors and irregularities. In accordance with the Board of Directors Regulations, the Audits Commission is entrusted with the following duties:

- › To report on the Annual Accounts, as well as on the quarterly and half-yearly financial statements that must be issued to the regulatory or supervisory bodies of the securities markets, with express mention of the internal control systems, verification

of compliance and monitoring through internal audits and, when applicable, on the accounting criteria applied.

- › To supervise the preparation process and the integrity of the financial report on the company and, if applicable, the group, and to verify compliance with regulatory requirements, the appropriate boundaries of the scope of consolidation and the correct application of Accounting principles.
- › Frequently review the systems for the internal monitoring and risks management, so that the main risks are identified, managed and properly disclosed.
- › Supervise and ensure the independence and effectiveness of the duties of internal audits and supervising them, with full access to said audits, propose the selection, appointment, re-selection and dismissal of heads of internal audits, propose the budget for said unit, and set the salary scale of its Director; obtain regular information on the activities and the budget of the unit; and ensure that the senior management considers the conclusions and recommendations in its reports.

The Audits Commission's functions include the supervision of the internal audits service and obtaining information on the financial reporting process, the internal control systems and on the risks for the company.

On the other hand, with regards to the supervision of the internal controls system, the goals of the duty of internal audits are as follows:

- › To prevent the group companies, projects and activities from exposure to audits risks such as fraud, capital losses, operational inefficiencies and, in general, any risks that may affect the healthy running of the business.
- › To ensure the continuous application of the standards, appropriate procedures and efficient management in accordance with the Common Management Systems.

The Internal Audits Department of Abengoa

The internal audits service originated as an independent global function, reporting to the Audits Commission of the board of directors, with the principal objective of supervising Abengoa's internal monitoring and significant risk management systems.

Abengoa's internal audit service is structured around seven functional areas:

- › Internal control
- › Financial Audit

- › Project Audit
- › Monitoring Audit of specific risks
- › Fraud Prevention Audit
- › Non-Financial Audit
- › Systems Audit

The team of internal auditors comprises of 56 professionals. The following are the characteristics of the team:

- › The average age of an internal auditor in Abengoa is currently at approximately 31 yrs
- › The male and female percentage is 60% and 40% respectively.
- › Professional experience averages around 7 years.
- › Approximately 70% of the auditors have previous experiences from one of the Big4 external auditing firms.

The general goals of internal auditing are as follows:

- › To prevent the group companies, projects and activities from exposure to audits risks such as fraud, capital losses, operational inefficiencies and, in general, any risks that may affect the healthy running of the business.
- › To ensure the continuous application of the standards, appropriate procedures and efficient management in accordance with the Common Management Systems.
- › To create value for Abengoa and its business units, promoting the construction and maintenance of synergies and the monitoring of optimal management practices.
- › To coordinate work criteria and approach with the external auditors, seeking the most efficiency and profitability of both functions.
- › Analysis and processing of the complaints received through whistle-blowing and reporting the conclusions of the work performed to the Audit Commission.
- › To evaluate the companies' audit risk following an objective procedure.
- › To develop Work Plans using scopes that is convenient for each different situation.

Abengoa's internal auditor services are in line with the international standards for the professional practice of internal auditing, of the Institute of Internal Audit (IIA).

Likewise, Abengoa is a member of ACFE Corporate Alliance as of fiscal year 2014. This association helps companies with tools and specific formation focused on the fight against fraud and corruption, as well as resources to obtain the CFE (Certified Fraud Examiner) certification for internal auditors assigned to this area.

F.5.2. Indicate whether there is a discussion procedure by which, (in accordance with the stipulations of the NTA), the accounts auditor, the internal audits' office and all the other experts, may inform the entity's senior management, its audits Commission and its directors, on the significant weaknesses identified in the internal control during the revision of the financial statements or of all other documents entrusted to them. Also report whether there is an action plan for correcting or mitigating the weaknesses uncovered.

The Internal Audits' office regularly informs the senior management and audits Commission on the weaknesses identified in internal control in revisions performed on the processes during the financial year, and on the introduction of the action plans put in place to ensure the mitigation of said weaknesses.

On the other hand, the accounts auditor of the group retains direct access to the group's senior management, holding regular meetings both to obtain the information necessary for the execution of its duties as well as to report on the weaknesses detected in (internal) control during the auditing. The external auditors will issue the economic-financial director and the audits Commission an annual report detailing the weaknesses it detected in the internal control while performing its duties.

F.6 Other information of interest

The external auditors issued five (7) reports during the 2014 financial year. They are integrated into the Annual Report:

- › Audit report on the Group's consolidated financial statements, as required by the Laws in vigour.
- › Audit report on internal audit compliance under PCAOB (Public Company Accounting Oversight Board) standards, as required under section 404 of the Sarbanes-Oxley Act (SOX)
- › Voluntary reasonable assurance audit report on the Corporate Governance Report, being the first Spanish listed company to obtain a report of this nature.
- › Voluntary reasonable assurance audit report on the Corporate Social Responsibility Report.
- › Voluntary audit report on the design of the Risk Management System following the ISO 31000 Standards and Specifications.

- › Voluntary report on the verification of the design and application of the anticorruption compliance system
- › Reasonable ensuring verification report on the assignment of funds of the Green Bond and its adequate assignment to the category of eligible green projects.

F.7. Report from the External Auditor

Issue report on:

F.7.1. whether the external auditor revised the SICFR information issued to the markets and, if so, the entity must include the corresponding report as annex but, if not, it must provide the reasons.

Abengoa applies all the rules and regulations dictated by the (CNMV) Stock Market Authorities. This fact implies that for the past five financial years Abengoa has been strictly complying with the reference indicators included in the document of the CNMV's "Systems of Internal Control over Financial Reporting.

Since 2007 and mandatorily as of 2014, Abengoa has voluntarily submitted its Internal Control Systems to an external evaluation that concludes with the issuance of an audit opinion under the PCAOB standards, and to audits to ascertain compliance with section 404 of the Sarbanes-Oxley Act (SOX).

The auditor of the individual and consolidated annual financial statements of Abengoa, for the financial year ending December 31, 2014, is Deloitte S.L. which is also the Group's main auditor.

G. Degree to which corporate governance recommendations are followed

Indicate the degree to which the company follows the recommendations of the Unified Good Governance Code.

In the event that a recommendation is not or is only partially followed, the entity should include detailed explanation of its reasons such that the shareholders, investors and the market in general, are provided with sufficient information to assess the performance of the company. Explanations of general nature shall not be acceptable

- › **1. The bylaws of listed companies should not limit the votes that can be cast by a single shareholder, or impose other obstacles to impede the takeover of the company by means of share purchases on the market.**

See sections: A.10, B.1, B.2, C.1.23 and C.1.24

Compliant

- › **2. If a parent and a subsidiary company are listed, both should provide detailed disclosure on:**

- **Their respective types of activities, and any business dealings between them, including between the listed subsidiary and other companies in the group;**
- **The mechanisms in place to resolve possible conflicts of interest.**

See sections: D.4 and D.7

Compliant

› **3. That even when not expressly required under Commercial Law, all decisions involving fundamental corporate restructuring, especially the following, are submitted to the General Shareholders' Meeting for approval or ratification:**

- The transformation of listed companies into holding companies through the process of "subsidiarisation", i.e. reallocating previous core activities of such company to subsidiaries, even if the latter may retain full control of the former;
- Any acquisition or transfer of key operating assets that would effectively alter the company's corporate purpose;
- Operations that effectively amount to the company's liquidation.

See section: B.6

Partially compliant

The company has not incorporated this regulation into its internal rules (bylaws) as a provision, which does not prevent compliance thereof in practice with said Recommendation.

› **4. Detailed proposals of the resolutions to be adopted at the General Meeting of Shareholders, including the information stated in recommendation 28, should be made available at the same time the meeting is convened.**

Compliant

› **5. Substantially independent issues should be voted separately at the General Meeting of Shareholders, in order for shareholders to be able to exercise their voting preferences separately. And that said rule applies, particularly:**

- To the appointment or ratification of directors, with separate voting on each candidate;
- To amendments to the bylaws, with votes taken on all materially different articles or groups of articles.

Compliant

› **6. Companies should allow split votes, so that financial intermediaries acting as nominees on behalf of various clients can issue their votes according to instructions.**

Compliant

› **7. The board of directors should perform its duties with unity of purpose and criteria independence, giving all the shareholders the same treatment, allowing itself to be guided only by the company's interests, which means striving to maximise its economic value in a sustainable manner.**

It should likewise ensure that the company abides by the laws and regulations in its dealings with stakeholders; performing its obligations and contracts in good faith; respecting the customs and good practices of the sectors and territories in which it operates; and upholding any additional social responsibility principles to which it may have voluntarily subscribed.

Compliant

› **8. The core components of the board's mission should be to approve the company's strategy and the organization required for its execution, and to ensure that management attains the objectives while pursuing the company's interests and corporate purpose. As such, the board in fully reserves the right to approve:**

- The company's general policies and strategies, and in particular
 - The strategic or business plan, management targets and annual budgets;
 - Investment and financing policy;
 - Design of the structure of the corporate group;
 - Corporate governance policy;
 - Corporate social responsibility policy;
 - Senior staff performance remuneration and evaluation policy;
 - Risk control and management policy, and the regular monitoring of internal information and control systems
 - Dividend and treasury stock policies and especially their limits.

- **The following decisions:**
 - **On the proposal of the company's chief executive, the appointment and removal of senior officers, and their compensation clauses.**
 - **Remuneration of board members, including, in the case of executive members, the additional considerations for their executive duties and other contract conditions.**
 - **The financial information that all listed companies must periodically disclose.**
 - **All kinds of investments or operations deemed strategic due to their huge amount or special characteristics, except if they require the approval of the General Meeting of Shareholders.**
 - **The creation or acquisition of shares in special purpose vehicles or entities resident in countries or territories considered tax havens, and any other comparable transactions or operations with complexities that might impair the transparency of the group.**
- **Transactions which the company conducts with board members, significant shareholders, shareholders with board representation or with other associated persons ("associated transactions").**

However, board authorization need not be required for associate transactions that simultaneously meet the following three conditions:

- **They are governed by standardized agreements that are applied on across-the-board bases to large numbers of clients;**
- **They go through at market rates, generally set by the person supplying the goods or services;**
- **Their amount is no more than 1% of the company's annual revenues.**

It is advisable that the Board approves associate transactions only if the audits commission or, as the case may be, any other commission assigned to that function, issues a favourable report; and that the board members involved may neither exercise nor delegate their voting rights, and should be excused from the meeting while the board deliberates and votes.

We also recommend that the aforementioned powers remain absolutely non-delegable with the exception of those mentioned in b) and c), which may be delegated to the executive committee in urgent cases and later ratified by the plenary session of the Board of Directors.

See sections: D.1 and D.6

- › **9. In the interests of maximum effectiveness and participation, the board of directors should ideally consist of no fewer than five and no more than fifteen members.**

See section: C.1.2

Partially compliant

At present the Board of Directors is comprised of sixteen (16) members in total although the fact is that said increase is as a result of the appointment of a new independent board member and such fact does not hinder the good and effective development of the sessions.

- › **10. External proprietary and independent board members should occupy an ample majority of board places, while the number of executive board members should be the minimum necessary bearing in mind the complexity of the corporate group and the percentage of ownership the executive board members hold in the equity.**

See sections A.3. and C.1.3

Compliant

- › **11. That among the external board members, the relation between proprietary and independent members should match the proportion between the capital represented on the board by proprietary board members and the rest of the company's capital.**

This strict proportionality criterion could be relaxed to grant proprietary board members greater say than would otherwise correspond to the total percentage of capital represented:

- **In companies with huge capital where few or no equity stakes attain the legal threshold of significant shareholdings, but where there are shareholders with considerable sums actually invested;**
- **2nd In companies with multiple but otherwise unrelated shareholders represented on the board.**

See sections: A.2., A.3 and C.1.3

Explain

Abengoa increased the number of proprietary board members on its board due to an investment agreement signed with First Reserve Corporation, on November 4, 2011.

Claudi Santiago Ponsa was appointed board member of Abengoa on the request of First Reserve Corporation by virtue of the agreement reached with Inversión Corporativa on November 9, 2011, in their capacity as shareholders of Abengoa, within the framework of the investment agreement signed between Abengoa and First Reserve Corporation, aforementioned, relating to the proposal, appointment, ratification, re-selection or replacement of a board member to represent First Reserve Corporation, of which this Commission was notified.

Notwithstanding the foregoing, the Company has also increased the number of independent directors with the appointment of Mr. Ricardo Hausmann and, more recently, Mr. Antonio Fornieles Melero.

- › **12. The number of independent members should represent at least one third of all board members.**

See section: C1.3

Explain

Contrary to what the company has always done until now, complying with the recommendations of corporate good governance, the number of independent board members decreased to less than a third of the total of board members due to the appointment of Mr. Claudio Santiago Ponsa as proprietary board member by virtue of the agreement signed with Inversión Corporativa on November 9, 2011, in the capacity as shareholders of Abengoa, and in spite of the appointment of Mr. Ricardo Hausmann as independent board member.

However, after financial close, Mr. Antonio Fornieles Melero has been appointed independent director, which elevates the number of independent directors again to one third of the total directors.

- › **13. The condition of each board member should be explained at the general meeting of shareholders, which shall execute or ratify its appointment, with confirmation or, as the case may be, review in the Annual Corporate Governance Report, before verification by the appointments commission, and that said report should also disclose the reasons for appointing proprietary members at the urging of shareholders with less than 5% of the capital, explaining any rejections of formal requests for a place on the Board of Directors issued by shareholders with capital equal to or greater than that of others whose requests for proprietary members may have been accepted.**

See section: C.1.22

Explain

There are currently sixteen members on the board of directors. The Board of Directors Regulations governs the composition, functions and internal organization of the governing body. The company also has an Internal Code of Conduct that bounds the board of directors, the senior management and all other employees deemed affected, by virtue of the positions or powers that may be held in matters relating to the Stock Market. The General Meetings of the Shareholders Regulations governs the formal aspects and the

internal system for holding shareholders' meetings. Lastly, the board of directors is assisted by its audits commission and the appointments and remunerations commission, both of which have their own respective internal regulations. All the rules and regulations, set forth in the consolidated text of the company's Internal Good Governance Rules, are available on the company's website at www.abengoa.es and www.abengoa.com. Since it was formed, the appointments and remunerations commission has been analysing the structure of the company's governing body and adapting it to the recommendations of corporate governance, especially to the historic and special configuration of said bodies within Abengoa. In February 2007, based on this analysis, the commission recommended the creation of the post of Lead Director, and the elimination of the Board of Directors' Advisory Board. The first measure, to put in place the most recent corporate governance recommendations made in Spain in 2006; the second, because it was deemed that said Advisory Board had already performed the duty for which it was originally created and that its coexistence with the corporate bodies could lead to conflicts of power. Both proposals were approved by the Board of Directors in February 2007 and at the General Meeting of Shareholders on April 15 of the same year and Prof. Mr José B. Terceiro, representing Aplidig S.L., was appointed coordinating board member, in his capacity as independent, on that date.

On a final note, in October 2007 the commission proposed that the board should accept the resignation of Mr. Javier Benjumea Llórente from his post as Deputy Chairman and should also revoke his delegated powers, and should likewise accept the appointment of a new natural person to represent Abengoa and Focus-Abengoa Foundation in entities or companies where representation is required.

The commission then decided to revisit the study of the number and characteristics of the Deputy Chairman of the board of directors within the current structure of governing bodies.

As a result, the commission deemed it necessary to restrict the powers of the Deputy Chairman of Abengoa to those conferred under the Spanish Corporate Law as regard the organic representation of the company on the one hand, and as balance to the Chairman's functions on the board of directors, on the other. Thus, it was considered that the coordinating board member – with the functions assigned by the resolutions of the board of directors (February 2007) and the general meeting of shareholders (April 2007) – was the ideal figure, given the corporate governance recommendations and the company structure, as well as the composition and diversity of its directors. The coordinating board member has already been entrusted with the task of coordinating the concerns and

motivations of the other board members, and empowered to convene board meetings and to include new items on the agenda. In its role as the visible protector of the interests of the Board members, it holds more of a de facto than of a de jure kind of representation on the Board, such that it seemed appropriate to confirm and expand this representation by making the post both institutional and organic.

For the reasons outlined above, the commission proposed Aplidig, S.L. (Aplidig, represented by Prof José B. Terceiro Lomba), the then Lead Director, as the new Executive Deputy Chairman to the Board of Directors. In addition, and within the functions of organic representation, the executive deputy chairman, jointly with the chairman of the board of directors, has been put forward as the physical representative of Abengoa, in its capacity as the Chair of the Board of the Focus-Abengoa Foundation, as well as in any other foundations and institutions in which the company is or should be represented.

In view of the above, on December 10, 2007, the board of directors agreed to appoint Aplidig, S.L. (represented by Prof José B. Terceiro Lomba), the then Lead Director, as Executive Deputy Chairman of the Board of Directors, and the independent board members unanimously consented that he retains the post of coordinating board member in spite of the new appointment as Executive Deputy Chairman.

In addition, and within the functions of organic representation (conferred through a power of attorney granted by the board of directors on July 23, 2007), the Executive Deputy Chairman, together with the Chairman of the Board of Directors, was proposed as joint physical representative of Abengoa, in its capacity as the Chair of the Board of Focus-Abengoa Foundation, and of any other foundations and institutions in which the company is or should be represented.

Notwithstanding the above, as indicated, on January 19, 2015, Aplidig S.L. (Prof. Mr. José B. Terceiro) was replaced by Mr. Antonio Fornieles Melero as Lead Independent Director and Second Vice-chairman.

H. Other information of interest

- › **1. Provide a brief detail of any other relevant aspects in the matter of the corporate governance of the company or entities of the group that have not been included in the other sections of this report, but that the inclusion of which is necessary for the compiling of a more complete and reasonable information on the structure and practices of governance in the entity or group.**

In 2013 Abengoa started compiling a "corporate compliance" programme.

The concept of "**corporate compliance**" was introduced in adherence to international practices and to specific compulsory legal rules and regulations, especially practised in Anglo-Saxon Law and, from December 2014 onwards, in Spain. Up until the Transparency Law and, most recently, Law 31/2014, of December 3, which amends the Corporate Law to improve corporate governance, became effective and enforceable in Spain, good governance recommendations were only as such, recommendations. They were not binding even though, on the international markets, companies were legally obliged to comply with certain codes of conduct to prevent fraud, among other bad practices. Notwithstanding the above, due to the increase in getting closer to the international markets as well as to the recent promulgation of Law 31/2014, it is now necessary, on the one hand, to harmonize the international practice with the Spanish laws, thus introducing the concept of criminal liability for legal entities and, on the other, to adapt the various company standards to the new amendments introduced in the Corporate Law.

The goal and objective that Abengoa hopes to attain by creating this programme and by adapting its standards to the recent amendments in the Corporate Law on the aspect of corporate governance is for the board of directors and the management to apply and practice ethics, legality and efficacy in business transactions (good governance), with the organization's systematic focus on evaluating and managing risks, and to ensure that the organization and its employees comply with the existing laws, regulations and standards, including the company's behavioural standards (regulatory compliance), with Abengoa exercising the due control and providing a strategic vision to tackle the legal needs of the organization. The creation of a regulatory compliance monitoring programme by introducing an effective system of good governance and crime prevention is an inevitable resource for the reputation of Abengoa.

Abengoa’s corporate compliance programme establishes standards and procedures for detecting and preventing bad corporate practices, with the board of directors acting as the authority in supervising the implementation and improvement of the compliance programme and creating the internal post of compliance officer. An appropriate **“corporate compliance programme”** requires an evaluation of the criminal, social and corporate good governance risks, a monitoring authority, a follow-up, action and surveillance programme as well as a significant task of continuous training of employees.

Admission to trade on Nasdaq

The ADS (American Depositary Shares) of Abengoa, SA purchased for Class B Shares were officially admitted to trade on Nasdaq, electronics stock market of American shares, on October 17, 2013. Consequently, Abengoa has to comply with the SEC requirements on the aspect of providing information, which implies reporting to the SEC all relevant information that the CNMV may publish in Spain, as well as having to make certain financial information available to SEC on yearly basis.

International Advisory Board

In 2010, Abengoa, becoming aware of its growing international implications in business transactions, created the International Advisory Board, with the board of directors empowered to select its members. The Advisory Board is a non-ruled voluntary body that renders technical and advisory consultancy services to the board of directors, to which it is organically and functionally subordinate, as consultant and strictly professional adviser; its main function is to serve as support to the board of directors within the scope of the latter’s own power and authority, collaborating and advising, basically focusing its activities on responding to inquiries made by the Board of Directors in connection to all issues on which the board of directors may seek advice, or even suggesting and making proposals considered as the outcome of their experience and analysis. This task of providing consultancy in matters of strategy, the environment and corporation, is in line with the greater knowledge Abengoa holds in the

needs of the various interest groups. It is one of the best indicators of the needs of interest groups

In 2014 Ms. Noemí Sanín Posada replaced Mr. Ricardo Hausmann.

The international advisory board comprises of persons of renowned prestige in various matters at international level. The most suitable profiles are selected based on the criteria of qualifications regardless of gender. The procedure for selecting them is based on professional merits and profiles and not on specific interests.

The members of the advisory board serve for two years, with the board of directors empowered to select its members who can also be re-selected. We now have a woman, Ms. Noemí Sanín Posada, on the board

Whistleblowing Channel

Abengoa and its business units have been operating a whistleblower channel since 2007 pursuant to the requirements of the Sarbanes-Oxley Act, whereby interested parties may report possible irregularities on accounting, auditing or internal controls over financial reporting, to the audits Commission. A register is kept of all communications received

in relation to the whistleblower, subject to the necessary guarantees of confidentiality, integrity and availability of the information.

In highly technical cases, the company secures the assistance of independent experts, thus ensuring at all times that it has the sufficient means of conducting a thorough investigation and guaranteeing sufficient levels of objectivity when performing the work.

Rights inherent in Class A and B Shares

Abengoa en el artículo 8 de sus estatutos regula los diferentes derechos de sus acciones clase A y B. La junta general extraordinaria de accionistas celebrada en segunda convocatoria el día 30 de septiembre de 2012 acordó modificar el artículo 8 de los estatutos sociales de Abengoa para incluir un mecanismo de conversión voluntaria de acciones clase A en acciones clase B. A continuación se detalla el mencionado subapartado del mencionado artículo 8 que contempla el derecho de conversión voluntaria:

“ [...] A.3)Derecho de conversión en acciones clase B

Article 8 of Abengoa’s Bylaws regulates the different rights inherent in its Class A and B shares. The extraordinary general shareholders’ meeting held on the second call on September 30, 2012, agreed to amend Article 8 of Abengoa’s Bylaws to include a mechanism for voluntarily converting class A shares into class B shares. Below is the aforementioned sub-section of the aforementioned Article 8 which includes the right of voluntary conversion:

“ [...] A.3) The Right of conversion into Class B Shares

Each Class A Share entitles its owner the right to convert it into a Class B Share until December 31, 2017.

Owner may exercise its right of conversion by notifying the company or, better still, as the case may be, the agency designated for such, through the corresponding participating entity of the Securities Registration, Compensation and Liquidation Management Company (Iberclear), by any media that permits the issuance of remittance and reception receipts, of notification, deemed irrevocably and unconditionally submitted, reflecting the total number of class A shares owned by said owner and the exact number of class A shares over which said owner wishes to exercise the inherent rights of conversion, in order for the Company to execute the agreements necessary for effecting the aforementioned

conversion and to subsequently inform the CNMV by issuing the corresponding Notice of Significant Event.

The aforementioned notice shall include the corresponding Certificate of Ownership and Legitimacy for the Class A Shares issued by an entity that must be participant in the Iberclear Management Systems, or through an intermediary or depository or financial entity managing the shares under the terms set forth in the regulations governing securities representation by means of book-entry or through any other equivalent means of accreditation to which the Company grants sufficient validity for that purpose.

The exercise of the inherent conversion rights of a class A shares shall be understood as the company’s stock capital being reduced in the amount of the difference between the nominal value of the class A shares for which the inherent rights are exercised and the nominal value of the same number of class B shares, an amount that will increase the restricted reserve which the company would already have set aside for that purpose and in accordance with Article 335.c) of the Corporate Law.

The Board of Directors, with the specific faculty of substitution by the Chairman or the Chief Executive, shall be empowered to determine the period, frequency and procedure for exercising the inherent conversion rights, including, if applicable, the decision of adequacy of the aforementioned equivalent means of accreditation, as well as all other aspects that may be deemed necessary for the proper and correct exercise of said right, which shall all be appropriately communicated through the corresponding notice of significant event. [...]

Reinforcement to guarantee minority rights

In the interest of reinforcing minority rights, Abengoa submitted a series of bylaw amendments to the extraordinary general shareholders’ meeting for approval for the purpose of ensuring that the so-called “defence of minority rights” does not suffer infringements for the mere fact that two different classes of shares exist with different nominal values simply because the lesser nominal value of the class B shares would entail that it is more difficult to obtain the percentages of the stock capital required for the exercise of some policy rights. Thus, the general shareholders’ meeting approved the amendments of Abengoa’s bylaws in the manner set forth below to envisage that all rights are exercised considering the number of shares as basis for the percentage, and not the stock capital. These rights, like, for example, the right to convene a shareholders meeting or to request the exercise of a corporate liability action, requires the ownership of a specific percentage of stock capital in the nominal sense (in the cited case, 5% at present) though, as a consequence of the

enforceability of Law 31/2014, which amends the Corporate Law with regards to Corporate Governance, Abengoa is currently revising its internal rules and regulations which will imply, among other things, the reducing of the aforementioned percentage down to 3%.

In particular, the extraordinary general shareholders' meeting approved the amendment of the bylaws so that it may reflect: that shareholders be required to own three hundred and seventy-five (375) shares, regardless of whether class A or B, to attend the general meeting of the company's shareholders; that shareholders be allowed to request the publication of a supplement to the call for an ordinary general meeting of shareholders including one or more points on the agenda and to submit proposals of decisions on issues already included or that should be included on the agenda of the convened meeting based on the number of shares owned by the shareholders; that (i) shareholders who own one percent of the voting shares be able to request the presence of Notary Public to endorse the minutes of the shareholders' general meeting on the basis of the number of shares that they may own; (ii) shareholders who own five percent of voting shares be able to request the convening of the shareholders' general meeting that should decide on the corporate liability action against directors or to exercise the corporate liability action without or against the decision of the shareholders' general meeting; that the company's board of directors convene shareholders' general meeting if requested as such by shareholders representing five percent of the company's voting shares; that the company's board of directors extend the shareholders' general meeting if requested as such by the shareholders representing five percent of the company's voting shares and that the company's board chairman suspends the rights to information as established in Article 197 of the Corporate Laws if requested as such by shareholders representing less than twenty-five percent of the company's voting shares.

Notwithstanding all of the above, as already previously mentioned, the bylaws and other rules regulating the operation of the company and its internal organs are being revised for adaptation to the new legal requirements introduced in Law 31/2014 which amends the Corporate Laws with regards to matters of Corporate Governance. The expected amendments include, among others, the decrease in the percentage from 5% referred to above down to 3%.

- › **3. The company may also indicate whether it voluntarily adhered to other codes of the principles of ethics or other good practices, international, sector or otherwise. As the case may be, the company shall identify the code in question and the date of adherence.**

As a result of the company's commitment to transparency, and for the purpose of continuing to ensure the reliability of the financial report prepared by the company, the report was adapted to the requirements established in section 404 of the 2007 United States Sarbanes-Oxley Act (SOX). For another year, the internal control system of the whole group was voluntarily submitted to an independent evaluation process conducted by external auditors under the PCAOB (Public Company Accounting Oversight Board) audit standards.

This standard is a compulsory law for all companies listed in the United States and is aimed at ensuring the reliability of the financial reporting of these companies and at protecting the interests of their shareholders and investors, by setting up an appropriate internal control system. This way, and even though none of the Business Units are under obligation to comply with the SOX Law, Abengoa believes it is best for all its companies to comply with said requirements, since said rules complete the risks control model that the company uses.

Likewise, in 2002 Abengoa signed the United Nations World Pact, an international initiative aimed at achieving the voluntary commitments of entities regarding social responsibility, by way of implementing ten principles based on the fights against corruption and on human, labour and environmental rights.

In 2006 Abengoa Peru signed the United Nations World Agreement, an agreement that is part of the principles of strategy, culture, and the daily transactions of our company, and we strive to make a clearer declaration of our commitments - both to our employees, colleagues, clients, as well as to the public in general.

Also, in 2007, the company signed the Caring for Climate initiative, also from the United Nations. Consequently, Abengoa put in motion a system of reporting on greenhouse gas (GHG) emissions which would permit it to register its greenhouse gas emissions, know the traceability of all its supplies and certify its products and services.

This Annual Corporate Governance Report was approved by the company's Board of Directors at its meeting held on:
