

On the occasion of future notice of meetings, the Company will keep the information available on them updated, for the purpose of supporting the right to information, and with this, the right to vote, of the shareholders, on equal terms.

Finally, with the regulatory and technical progress to be established, the right to vote or to electronic delegation will be guaranteed under the protection of specific legal certainty.

**g. Level of monitoring of the recommendations relating to Corporate Governance.**

In the measure by which the information contained in the recommendation reports is less detailed and developed than the current Annual Corporate Governance Report, we defer to it for the issues set out therein. Said Report is available at [www.abengoa.com](http://www.abengoa.com).

Likewise, pursuant to the Ministerial Order of December 22, 1999, published in Circular 1/2000 of the CNMV relating to the business development and prospects of listed companies assigned to the New Market segment, the company annually remits the relevant information required, similarly at the time of the notice of the Ordinary General Shareholders' (April 9, 2006). Said information is available at "[www.abengoa.com](http://www.abengoa.com) (Legal and Financial Information / Reports to CNMV / Relevant Events; Other Communications".

**h. Information Tools.**

i) Web ([www.abengoa.com](http://www.abengoa.com)).

The obligation to provide useful, true, complete and balanced information to the market in real time would not be sufficient if the suitable methods for transmitting this information were not appropriate, guaranteeing that it is distributed effectively and usefully. As a result, the Aldama Report and the Financial System Reform Act recommend, as a product of new technologies, the use of listed companies' websites as an information tool (including historical, qualitative and quantitative company data) and a distribution tool (including timely or individualized information in real time that may be accessed by investors).

At the end of the first quarter of 2002, Abengoa therefore implemented a new company website, characterized on the one hand by a more direct, quick and efficient onscreen presentation, and on the other hand, with information content and documentation made available to the general public, focused on three fundamental aspects:

a) Commercial: the presentation of the Company and its Business Groups, press releases, newsletters, etc.
