

ABENGOA

Innovative technology solutions for **sustainability**

Abengoa committed to employment integration

- It has awarded the cleaning contract for its headquarters in Seville to Cycle, a company that promotes the employment of people with disabilities.

Seville, 9 April 2013.- Abengoa (MCE: ABG), the international company that applies innovative technology solutions for sustainable development in the energy and environment sectors, has awarded the cleaning contract for its Campus Palmas Altas and Torrecuellar headquarters (Seville) to Cycle, a company that promotes the employment and professional development of people with any type of disability.

In accordance with its commitment to promote employment integration and facilitate equal opportunities for people with disabilities, Abengoa has launched this initiative as part of its Corporate Social Responsibility plan. Over the next few months, Cycle, the integral services company, will increase the number of cleaning services personnel with disabilities, and expects to have 50 employed by midyear.

Cycle is an integral services company that promotes the employment and professional development of people with any type of disability.

About Abengoa

Abengoa (MCE: ABG) is an international company that applies innovative technological solutions for sustainable development in the sectors of energy and the environment, by generating electricity from the sun, producing biofuels, desalinating sea water or recycling industrial waste.
