Seville, 8 February 2000

Ref.: Other communications

Dear Sirs,

In relation to the communication published on 7 February 2000 by LaNetro in various press sources, we hereby confirm to you the acquisition by Telecom Ventures, A.G., (Telvent), a company wholly owned by Abengoa, of 53,283 shares, with a nominal value of 1 Euro each, representing 5% of the share capital of LaNetro, by means of a rights issue subscription agreed by said company on 4 February 2000.

This transaction fits into the scheduled investment program undertaken by Telvent in accordance with our communication of 17 January 2000 in relation to the constitution of Telvent by Abengoa, as a Relevant Fact.

Telvent's objective is to invest in internet content companies and in operators that develop new access infrastructures with both wide band and fixed band, such as mobile telephones, as stated in that communication. Telvent's objective is therefore twofold: firstly, to create a diversified portfolio of shareholdings in leading companies, without intervening in their management, and secondly, to promote businesses focussed on the creation and operation of neutral and shared infrastructure to support new telecommunications services, internet access and electronic commerce.

Yours faithfully,

[Signed]
