

SDGs	Description of the goals	Description
	Goal no. 1: end poverty in all its forms everywhere	Abengoa is present in the local business and industrial fabric, providing its support and social action initiatives to help the most vulnerable groups.
	Goal no. 3: ensure healthy lives and promote well-being for all at all ages	The health and well-being of its staff and all players in its supply chain are a priority for the company and, in particular, for its senior management. To this end, it rolls out different policies and actions to guarantee safe working conditions and appropriate training for all of its personnel.
	Goal no. 4: ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	The company rolls out training actions for the local communities with its social action plans.
	Goal no. 5: achieve gender equality and empower all women and girls	The company uses its own mechanisms to guarantee gender equality in any area. To achieve this, it has its own Equality Framework Plan and the Equal Opportunities and Treatment Office, aimed at ensuring gender equality and equal opportunities for men and women. The SCSR has established a strategic gender equality line with many different objectives to make progress in this area.
	Goal no. 6: Ensure availability and sustainable management of water and sanitation for all	Abengoa offers products and services to manage the comprehensive water cycle, guaranteeing the availability of resources with an efficient approach.
	Goal no. 7: Ensure access to affordable, reliable, sustainable and modern energy for all	Renewable energy is one of the pillars of Abengoa's business, both in the business itself -being a global leader in the development of thermoelectric, photovoltaic and hybrid power plants with storage systems, and in the 'Biomass to Energy' sector-, and on how it conducts business, fostering the implementation of efficient measures in all of its lines of activity.
	Goal no. 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	The company fosters local employment in the communities in which it is present, promoting social inclusion through employment to local suppliers, reducing poverty and fostering local employability through education.
	Goal no. 9: Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation	The organisation contributes to the growth and development of society through the construction, operation and maintenance of sustainable infrastructures that protect the environment and society.
	Goal no. 10: Reduce inequality within and among countries	Helping the communities in which the company operates with education, guaranteeing professional training is provided to everyone with the purpose of fostering equal opportunities.
	Goal no. 11: Make cities and human settlements inclusive, safe, resilient and sustainable	Abengoa provides solutions aimed at sustainable urban development, the supply of the most suitable basic services and safe transport systems, focusing its activities on the generation of clean energy and water management, building energy transmission infrastructures and railway lines and traction substations, as well as singular buildings, such as hospitals or prisons.
	Goal no. 12: Ensure sustainable consumption and production models	In accordance with its environmental policy, Abengoa promotes the efficient use of natural resources and effective waste management, thus guaranteeing its commitment to the environment, focusing its activity on moving towards a green growth model.
	Goal no. 13: Take urgent action to combat climate change and its impacts	Abengoa focuses its activities on offering solutions aimed at reducing emissions and at energy efficiency throughout the supply chain. Likewise, it has developed different strategies to analyse the risks associated with climate change in all of its projects and facilities.
	Goal no. 15: Sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	Abengoa promotes the use of techniques and equipment that are beneficial to the organic regeneration of soils and thus reduce the risk of fire during its construction work and when operating its projects. It also establishes plans for the protection of fauna and flora and initiatives for the restoration and repair of any damage, if needed.
	Goal no. 16: Promote fair, peaceful and inclusive societies	Strengthening the company's code of ethics with the compliance area and consolidation of the whistleblowing channels through its internal and external channels.
