Nota: Estos rankings 2007 se basan en los datos de ventas de 2006.

Engineering News-Record (ENR) es una publicación semanal que proporciona noticias, análisis, datos y la opinión de la industria de la construcción en todo el mundo. Se edita desde 1874 y es propiedad de The McGraw-Hill Companies.

ENR es una de las más prestigiosas revistas técnicas de este sector y su misión es proporcionar noticias, análisis, comentarios y datos para que los profesionales de industria de construcción puedan hacer sus trabajos más eficazmente.

La revista semanal en papel cuenta con más de 70,000 suscriptores de pago, y la website recibe más de 90,000 visitantes diferentes al mes.

Entre los suscriptores de la revista están contratistas, ingenieros, arquitectos, los reguladores gubernamentales, grandes clientes y proveedores del sector.

Abarca el diseño y la construcción de grandes infraestructuras como: estadios, aeropuertos, grandes edificios, puentes, presas, túneles, plantas de energía, plantas industriales, proyectos de tratamiento de agua y aguas residuales y plantas de reciclado de residuos tóxicos. Asimismo, trata los temas financieros, jurídicos, de seguridad, medio ambiente, de gestión de las empresas y laborales asociados a la industria de la construcción.

ENR recopila y publica varios rankings de las mayores empresas en los EE.UU. e internacionales de ingeniería y construcción al año, medido por ingresos brutos. Entre otros el de los 225 mayores contratistas internacionales, el de las 200 mayores ingenierías, los mayores 400 contratistas generales de EE.UU o las 500 mayores empresas de diseño (empresas de arquitectura e ingeniería) de EE.UU.

Dado que más de 90 por ciento de las empresas que aparecen en los rankings son de propiedad privada, la mayoría de los datos financieros que figuran en sus estudios no están disponibles en otros lugares.

La forma de participar es voluntaria y aunque año tras año se va incrementando el número de empresas que aportan datos puede que falte alguna empresa.

El Global Construction Sourcebook es un número especial que recopila y detalla los rankings correspondientes al Top 225 International Contractors y el 200 International Design Firms.

La revista comienza con una Visión General que recoge los listados generales separando las ingenierías de los contratistas. Además facilita dos listados independientes :

- Top International: solo considera la cifra de negocio generadas por las empresas fuera de su país de origen en 2006
- Top Global: considera toda cifra de negocio en 2006.

A continuación de esta visión general, desglosa las ingenierías y contratistas para cada uno de los siguientes sectores:

- Medio Ambiente,
- Construcción,
- Fabricación/Industria,
- Petróleo,
- Energía,
- Telecomunicaciones,
- Transporte.
